What is the Supplemental Home Protection Plan?

The *Supplemental Home Protection Plan* is a home warranty service contract that covers the repairs and replacements necessary to restore the appliances and mechanical systems of your home to normal operating conditions. Instead of spending hundreds of dollars on repairs, you only pay one low service fee per incident.*

How does the Supplemental Home Protection Plan work?

When you need service, just call our 24/7 toll-free number to be matched with a local service technician.

** Subject to the Terms and Conditions of the Agreement.*

Optional

** Subject to the terms and conditions of the Agreement. Visit homewarrantyinc.com to review the actual terms and conditions for coverage, limitations and exclusions.*

Why buy a Supplemental Home Protection Plan?

Provides peace of mind on one of the largest investments of your life. No more worrying about expensive repairs on your home's appliances and mechanical systems. One toll-free number is all you need.

Affords you budget protection after buying a home. You pay one low service fee per repair and Home Warranty pays the rest.* Homeowners file an average of 1.2 claims in their first year of home ownership.**

Your homeowners insurance coverage **protects you in the event of a loss** due to fire, smoke, wind, hail, theft, and the like...but not system failures due to normal wear and tear. We **fill the "wear and tear" gap** created by the exclusion to your homeowners insurance coverage, subject to the provisions of the warranty.

Allows you the **choice of service providers** to complete the repair. A preferred servicer (if available) will perform the initial diagnostics.

* Up to contract limits

**Based on internal claims data for 2012-16

Home Warranty Facts

Homeowners spend an average of **\$900** each year to repair home systems and appliances.¹

The average life expectancy of nine critical appliances/home systems is **13 years**, and the likelihood of failure of one of these systems in a given year is **68%**.²

A home system or appliance repair can range from **\$65 to \$2,000**; replacement costs average **\$1,085**.³
